E.P. Nr. 963 din 26.09.2011

din data de 26.09.2011

Nr. 963 REUNIUNEA "SECURITATEA ENERGETICA"
INFORMARE

In perioada 11-12 septembrie 2011 la Varsovia a avut loc Reuniunea presedintilor comisiilor pentru politica economica din parlament ale statelor membre ale Uniunii europene cu tema: **Securitatea energetica.**

Reuniunea a debutat in data de 12 septembrie cu alocutiunile de deschidere sustinute de domnii Bogdan BORUSEWICZ, Presedintele Senatului, dl Wojciech JASINSKI, Presedinte al Comisiei Economice din Sejm (Camera Inferioara a Parlamentului Poloniei), dl Wojciech JASINSKI, Presedinte al Comisiei Economice Nationale a Senatului si dl Waldemar PAWLAK VicePrim-Ministru, Ministerul Economiei Polonia.

Principalele puncte de discutie pe ordinea de zi a reuniunii au fost:

- Obiectivele si implementarea politicilor energetice europene pana in 2020 pe perioada crizei financiare si economice din UE; discutie mediata de dl Günther Oettinger, Comisar pentru Energie.
- Rolul si capabilitatea Bancii Europene de Investitii in co-finantarea obiectivelor politicii energetice europene. Dl Philippe Maystadt, Presedinte al Bancii Europene de Investitii a prezentat in deschidere punctul de vedere al BEI
- Asigurarea securitatii energetice in cadrul UE prin rationalizarea investitiilor, dar si a costurilor sociale si de mediu, dezbateri ce a fost moderata de dl Władysław Mielczarski, profesor la Universitatea Tehnica din Lodz.

Intalnirea a fost deschisa de alocutiunea dl-ului Presedinte al Senatului, dl Bogdan Borusewicz care a evidentiat importanta politicilor energetice ale Uniunii Europene si obiectivele Poloniei in aceasta directie. Acesta a precizat ca Statele Membre au diferite puncte de vedere referitor la angajamentele UE de protectie a mediului incojurator prin reducerea emisiei de gaz cu 20% pana in 2020 fata de nivelul din 1990, reducerea consumului de energie cu 20% comparativ cu previziunile UE pentru 2020, cresterea ponderii surselor de energie regenerabila la 20% din totalul consumului de energie al UE inclusiv cresterea cu 10% a surselor de energie regenerabila in transport. Este foarte important realizarea unor politici comune la care sa adere toate Statele Membre.

In opinia Presedintelui Senatului, politicile energetice ale Uniunii Europene ar trebui sa contribuie la consolidarea surselor regenerabile de energie in cadrul productiei de energie, dezvoltarea retelelor de energie interconectate, integrate, interoperabile. Acest lucru ar trebui sa conduca la reducerea importurilor de energie si sa creasca productia indigena de energie, pastrand in acelasi timp competitivitatea si cresterea economica si reducerea emisiei de gaze. Dl Bogdan Borusewicz, Presedintele Senatului a accentuat importanta faptului ca aceste politici ar trebui realizate in spiritul solidaritatii si responsabilitatii astfel incat nici un Stat Membru sa nu ramana izolat si sa se ia masurile

necesare pentru asigurarea securitatii energetice. Acest lucru presupune unirea tuturor Statelor Membre sub o singura voce pe forumurile internationale cu privire la aspectele legate de energie.

In incheierea discursului Presedintele Senatului dl-ul B. Borusewicz a concluzionat ca strategia energetica sustinuta de Uniunea Europeana este una foarte ambitioasa. El si-a exprimat increderea ca Statele Membre vor face fata acestei cerinte iar Polonia in mod particular va face tot ce este necesar pentru implementarea politicii.

In continuarea discutiilor VicePrim-Ministru DI Waldemar Pawlak a luat cuvantul prezentand punctul de vedere al Guvenului polonez cu privire la nevoia si capacitatea de finantare a politicilor energetice ale Uniunii Europene pana in 2020. El a mai prezicat ca politicile energetice ale Uniunii Europene ar trebui sa respecte 3 teluri: competitivitate, sustenabilitate dezvoltarii si securitatea rezervelor. In opinia VicePrim-Ministrului este de asemeni foarte important sa se discute si despre reducerea emisiilor. Ministrul Economiei a evidentiat ca sectorul energetic are nevoie de investitii pe termen lung, lucru care in mod regretabil nu au putut fi realizate datorita situatiei actuale de pe pietele financiare. Sectorul energetic are nevoie de solutii legislative si de reglementari.

Obiectivele si implementarea politicilor energetice Europene pana in 2020 pe perioada crizei financiare si economice din UE a reprezentat unul din principalele puncte aflate pe agenda reuniunii. Discutia a fost mediata de dl Günther Oettinger, Comisar pentru Energie.

DI Comisar a evidentiat printre altele, trei factori deosebit de importanti si anume securitatea si disponibilitatea energetica, dar si pretul in industrie. Asa cum spunea si el, viitorul pret al energiei va afecta situatia economica a Europei. Acesta a exemplificat acest lucru prin faptul ca pretul excesiv al energiei in Uniunea Europeana afecteaza industria, lucru care va duce la fluxuri de capital in afara Europei si in consecinta va rezulta o scadere a numarului de locuri de munca.

DI Oettinger a subliniat contextul international, dezvoltarea rapida a unor tari cum este China, India, Brazilia unde cererea pentru energie e in continua crestere. Dupa dezastrul centralei nucleare de la Fukushima, Japonia este nevoita sa cumpere energie. Asa cum evidentia si comisarul european, suntem condamnati la o competitivitate in continua crestere printre cumparatorii de energie.

Referitor la rolul si capabilitatea Bancii Europene de Investitii in co-finantarea obiectivelor politicii energetice europene dl Maystadt Presedintele Bancii Europene de Investitii a adus in discutie printre altele proiectele de investitii co-finantate de BEI in Polonia: un proiect in valoare de 45 mil Euro pentru construirea unui parc eolian in Margonin langa Poznań si o investitie de 170 de mil de Euro pentru doua proiecte cu biomasa. Printre programele implementate de BEI Presedintele Bancii a mentionat Fondul Margherite, o masura comuna ce reuneste pe termen lung 5 investitori din Franta, Germania, Italia, Spania si Polonia. Asa cum afirma si Presedintele Maystadt, BEI va cauta cea mai buna cale pentru a finanta sectorul energetic care prezinta o semnificatie cheie pentru Uniunea Europeana.

Dezbaterea referitoare la asigurarea securitatii energetice in cadrul UE prin rationalizarea investitiilor dar si al costurilor sociale si de mediu a fost moderata de dl

Władysław Mielczarski, profesor la Universitatea Tehnica din Lodz. Acesta si-a exprimat opinia de specialist in domeniu manifestandu-si scepticismul in evaluarea politicilor energetice europene. In opinia sa includerea unor probleme cum ar fi climatul, energia si economia intr-un singur pachet este o idee excelenta dar o mare problema o va ridica implementarea. Tehnologia nu poate tine pasul obiectivelor stabilite.

DI profesor Mielczarski a mai precizat ca, in opinia sa, nu pot fi impuse restrictii doar de o anumita parte. Avand in vedere diferentele energetice dintre Statele Memembre se poate spune ca aceasta cursa nu este una cu sanse egale de castig pentru toata lumea. El a subliniat ca este imposibil din punct de vedere fizic sa reducem consumul de emisii de CO2 impuse dar pentru sectorul energetic polonez sa treaca la alte surse de energie altele decat carbunele va fi destul de dificil.

Pe durata discutiilor s-a evidentiat ca pentru a realiza politicile energetice comune europene este necesara o finantare din bugetul UE, avand drept exemplu politicile agricole comune. Totusi nu se poate preciza cu exactitate daca, datorita crizei economice bugetul UE va putea sustine piata energetica pentru a face fata provocarilor globale. Concluzia agreata de participantii la acest seminar a fost ca trebuiesc gasite noi surse de finantare.

Una din concluziile conferintei evidentiata si de Ruperta Lichtenecker, deputat in Parlamentul Austriei este ca implementarea politicilor energetice va determina o crestere calitativa a vietii dar si o securitate a locurilor de munca. Este de asemenea important ca si consumul de energie sa se realizeze eficient si economic.

Un alt punct important discutat a fost energia nucleara. In opinia unor parlamentari europeni folosirea ei dupa Fukushima sta sub semnul intrebării. O mare problema o ridica depozitarea deseurilor radioactive. Din aceste motive este necesara o crestere a ponderii energiei regenerabile.

De comun acord a fost de asemenea, faptul ca Europa are nevoie de viziune si stabilitate in planificarea investitiilor energetice acest lucru necesitand o legislatie competenta si stabila.

Deputat
Trasculescu Alin Silviu

Warsaw, 8 July 2011

Dear Madam Speaker,
Dear Mr Speaker,

On 1 July 2011, Poland assumed the Presidency of the Council of the European Union. In line with the European tradition, the parliamentary dimension of the Presidency is implemented jointly by the Sejm and the Senate of the Republic of Poland in the form of meetings of specialized committee chairpersons. The programme and subject matter of the meetings will be related to the Presidency priorities adopted by Poland.

Please find enclosed the invitation from the chairmen of the Economic Committee of the Sejm and the National Economy Committee of the Senate of the Republic of Poland to the meeting of chairpersons of economic affairs committees to be held at the Senate on 11-12 September 2011.

We would be grateful if you could pass on the attached invitation to the chairpersons of the committees concerned.

With assurances of our esteem,

/-/
Grzegorz Schetyna

/-/
Bogdan Borusewicz

Warsaw, 8 July 2011

Dear Colleagues,

On 1 July 2011 Poland assumed the Presidency of the Council of the European Union. The parliamentary dimension of the Presidency is implemented jointly by the Sejm of the Republic of Poland and the Senate of the Republic of Poland, so traditionally both Chambers will be the hosts of meetings of chairpersons of specialized committees. We are convinced that the meetings will provide an excellent forum for sharing views and discussing many current issues related to the functioning of the European Union.

Therefore, we have the honour of inviting you to the meeting of chairpersons of economic affairs committees, which will be held on 11-12 September 2011 in Warsaw in the Senate building. The meeting will start with a welcome dinner on Sunday, 11 September 2011.

Please find enclosed a draft programme and general information on the meeting. All up-to-date details of the meeting can be found on the Polish Presidency parliamentary dimension website at www.parl2011.pl. Also available on the website are electronic forms through which you can book your participation in the conference and hotel accommodation.

We are looking forward to our September meeting in Warsaw.

Yours sincerely,

/-/

Wojciech Jasiński
Chairman

of the Economic Committee
of the Sejm of the Republic of Poland

DRAFT PROGRAMME

SUNDAY, 11 SEPTEMBER 2011

- 17.30** Visit to Museum
- 19.00** Official dinner hosted by the Chairman of the Economic Committee of the Sejm, Mr Wojciech Jasiński and the Chairman of the National Economy Committee of the Senate, Mr Jan Wyrowiński

MONDAY, 12 SEPTEMBER 2011

9.00 Opening of the meeting:

Mr Bogdan BORUSEWICZ, Marshal of the Senate

Mr Wojciech JASIŃSKI, Chairman of the Economic Committee of the Sejm

Mr Jan WYROWIŃSKI, Chairman of the National Economy Committee of the Senate

9.15 Address by Mr Waldemar PAWLAK, Deputy Prime Minister, Minister of Economy
Debate

10.10 The objectives and implementation of European energy policy until 2020 in times of the financial and economic crisis in the EU

- Mr Günther Oettinger, Commissioner for Energy

Debate

11.10 Coffee break

11.30 The role and capabilities of the European Investment Bank in co-financing the objectives of European energy policy

- Mr Philippe Maystadt, President of the European Investment Bank

Debate

12.45 How to ensure energy security in the EU by rationalising the investments as well as social and environmental costs?

- Professor Władysław Mielczarski, Technical University of Lodz

Debate

13.45 Family photo

13.50 Lunch hosted by the Chairman of the Economic Committee of the Sejm, Mr Wojciech Jasiński and the Chairman of the National Economy Committee of the Senate, Mr Jan Wyrowiński
