1. BACKGROUND

Date of transmission of the proposal to the European Parliament and to the Council 19 April 2023.
(document COM(2023) 226 final – 2023/0111 COD):

Date of the opinion of the European Economic and Social Committee: 13 July 2023.

Date of the position of the European Parliament, first reading: 24 April 2024.

Date of transmission of the amended proposal: N/A.

Date of adoption of the position of the Council: 5 March 2026.

2. OBJECTIVE OF THE PROPOSAL FROM THE COMMISSION

The Commission proposed a package of four amending acts to reform the Crisis Management and Deposit Insurance (CMDI) framework. The proposed amendments to Directive 2014/59/EU as regards certain aspects of the minimum requirement for own funds and eligible liabilities (COM/2023/229 final) were adopted separately by the co-legislators as Directive (EU) 2024/1174. The remaining three acts proposed amendments to, respectively, Directive 2014/59/EU, Regulation (EU) 806/2014, and Directive 2014/49/EU.

The overarching objectives of the CMDI proposal have been to better protect financial stability and taxpayers' money, shield the real economy from the impact of bank failures and to further enhance depositor protection. The proposal aims to achieve those objectives by improving the crisis management tools used to manage the failure of smaller and medium-sized banks. The main tool for achieving that goal is enabling resolution authorities to use funds from deposit guarantee schemes to finance the implementation of a transfer strategy in cases in which the internal loss-absorbing capacity of such a bank is not sufficient to access the resolution fund.

3. COMMENTS ON THE POSITION OF THE COUNCIL

The position of the Council regarding the proposed amendments to Regulation (EU)

806/2014, as adopted at first reading, fully reflects the political agreement reached between the European Parliament and the Council on 25 June 2025. The Commission supports this agreement. The main points of this agreement regarding Regulation (EU) 806/2014 are the following:

- Rules on using DGS for accessing the funding for resolution from the Single Resolution Fund are subject to similar, and in some instances stricter, rules on sequencing, safeguards and burden-sharing requirements as agreed for Directive 2014/59/EU, ensuring that banks' internal loss absorbing capacity remains the first line of defence and taxpayers' money is well protected.
- The governance of the Single Resolution Board is reformed through additional consultation obligations involving the Board in its Plenary session, strengthening the involvement of the national resolution authorities in the Board's decision-making processes.

4. CONCLUSION

The Commission supports the results of the interinstitutional negotiations and can therefore accept the Council's position at first reading.
