ANNEX 3

ANNEX

to the

Proposal for a Council Decision

**on the conclusion of the Free Trade Agreement between the European Union and the
Republic of India**

INTRODUCTORY NOTES
TO PRODUCT-SPECIFIC RULES OF ORIGIN

NOTE 1

General principles

1. This Annex sets out the general rules for the applicable requirements of Annex 3-B (Product-specific rules of origin) as provided for in Article 3.2(1) (Requirements for originating products).
2. For the purposes of this Annex and Annex 3-B (Product-specific rules of origin), the requirements for a product to have originating status in accordance with point (b) of Article 3.2(1) (Requirements for originating products) are:
 - (a) a change in tariff classification,
 - (b) a maximum value or weight of non-originating materials,
 - (c) a minimum qualifying value content,
 - (d) that the product is the result of a production process, or

(e) any other requirement specified in this Annex and Annex 3-B (Product-specific rules of origin).

3. Reference to weight in a product-specific rule of origin means the net weight, which is the weight of a material or a product, not including the weight of packaging for retail sale.

4. This Annex and Annex 3-B (Product-specific rules of origin) are based on the Harmonized System, as amended on 1 January 2022.

NOTE 2

The structure of Annex 3-B (Product-specific rules of origin)

1. Notes on HS sections or chapters, where applicable, are read in conjunction with the product-specific rules of origin for the relevant HS section, chapter, heading or subheading.

2. Each product-specific rule of origin set out in Column 2 of Annex 3-B (Product-specific rules of origin) applies to the corresponding product indicated in Column 1 of Annex 3-B (Product-specific rules of origin).

3. If a product is subject to alternative product-specific rules of origin, that product shall be originating in a Party if it satisfies one of the alternatives. In those cases, alternative product-specific rules are separated by one or more semi-colon (;), the last semi-colon being followed by "or".

4. If a product is subject to a product-specific rule of origin that includes multiple requirements, the product shall be originating in a Party only if it satisfies all of the requirements.
5. For the purposes of this Annex and Annex 3-B (Product-specific rules of origin), the following definitions apply:
- (a) "chapter" means the first two-digits in the tariff classification number under the Harmonized System;
 - (b) "heading" means the first four-digits in the tariff classification number under the Harmonized System;
 - (c) "section" means a section of the Harmonized System; and
 - (d) "subheading" means the first six-digits in the tariff classification number under the Harmonized System.
6. For the purposes of the product-specific rules of origin, the following abbreviations apply:
- (a) "CC" means production from non-originating materials of any chapter, except that of the product; this means that any non-originating material used in the production of the product must be classified under a chapter (2-digit level of the Harmonized System) other than that of the product (i.e. a change in chapter);

- (b) "CTH" means production from non-originating materials of any heading, except that of the product; this means that any non-originating material used in the production of the product must be classified under a heading (4-digit level of the Harmonized System) other than that of the product (i.e. a change in heading);
- (c) "CTSH" means production from non-originating materials of any subheading, except that of the product; this means that any non-originating material used in the production of the product must be classified under a subheading (6-digit level of the Harmonized System) other than that of the product (i.e. a change in subheading); and
- (d) "WO" means that the product must be Wholly Obtained in the territory of the exporting Party within the meaning of Article 3.3 (Wholly obtained products).

NOTE 3

Application of the product-specific rules of origin

1. Article 3.2 (Requirements for originating products), concerning a product having acquired originating status which is used in the production of another product, applies whether or not originating status has been acquired inside the same place of production or factory in a Party where the product is used.

2. If a product-specific rule of origin specifically excludes certain non-originating materials or provides that the value or weight of a specified non-originating material shall not exceed a specific threshold, these conditions do not apply to non-originating materials classified elsewhere in the Harmonized System.

Example: When the rule for bulldozers (subheading 8429.11) requires: "CTH except from non-originating materials of heading 84.31", the use of non-originating materials classified elsewhere than headings 84.29 and 84.31 – such as screws (heading 73.18), insulated wires and electric conductors (heading 85.44) and various electronics (chapter 85) – is allowed.

3. If a product-specific rule of origin uses the expression "production from non-originating materials of any heading" this means the use of non-originating materials classified within the same heading or even subheading is allowed, provided the production goes beyond the insufficient production listed in Article 3.5 (Insufficient production or minimal operations and processes).

NOTE 4

Application of rules
based on a maximum value of non-originating materials
or a minimum qualifying value content

1. For the purposes of the product-specific rules of origin, the following definitions apply:
 - (a) "customs value" means the value as determined in accordance with the Customs Valuation Agreement;
 - (b) "EXW" or "ex-works price" means:
 - (i) the price of the product paid or payable to the producer in whose undertaking the last working or processing is carried out, provided that the price includes the value of all the materials used and all other costs incurred in the production of the product, minus any internal taxes which are, or may be, repaid when the product obtained is exported¹; or

¹ For the purposes of this point, where the last production has been subcontracted in the Party, the term "producer" means a person who has employed the subcontractor.

- (ii) if there is no price paid or payable or if the actual price paid does not reflect all costs related to the production of the product which are actually incurred in the production of the product, the value of all the materials used and all other costs incurred in the production of the product in the exporting Party:
 - (A) including selling, general and administrative expenses, as well as profit, that can reasonably be allocated to the product; and
 - (B) excluding the cost of freight, insurance, all other costs incurred in transporting the product and any internal taxes of the exporting Party which are, or may be, repaid when the product obtained is exported;
- (c) "FOB value" or "Free-On-Board value" means the price actually paid or payable to the exporter for a good when the good is loaded onto the carrier at the named port of exportation, including the cost of the good and all costs necessary to bring the good onto the carrier not taking into account any internal taxes which are, or may be, repaid when the product obtained is exported;
- (d) "MaxNOM (EXW)" means the maximum value of non-originating materials that may be used in the production of a product, expressed as a percentage of the ex-works price of the final product;
- (e) "QVC (FOB)" means the minimum qualifying value content that should be achieved in the production of a product, expressed as a percentage of the FOB value of the final product; and

- (f) "VNM" means the value of the non-originating materials including materials whose originating status cannot be determined used in the production of the product, which is its customs value at the time of importation, including freight, insurance if appropriate, packing and all other costs incurred in transporting the materials to the importation port in the Party where the producer of the product is located; where the value of the non-originating materials is not known and cannot be ascertained, the first ascertainable price paid for the non-originating materials in the European Union or in India is used; the value of the non-originating materials used in the production of the product may be calculated on the basis of any inventory valuation method, including the weighted average cost or first-in, first-out, formula under accounting principles which are generally accepted in the Party.

2. A product complies with the product specific rule specified for that product in Annex 3-B (Product-specific rules of origin) when:

- (a) the VNM used in the production, expressed as a percentage of the EXW of the product, is less than or equal to the MaxNOM (EXW) (%) specified for that product in Annex 3-B (Product-specific rules of origin), according to the following formula:

$$\frac{VNM}{EXW} * 100 \leq MaxNOM (EXW)(\%)$$

- (b) the product has a qualifying value content that is greater than or equal to the QVC (FOB) (%) specified for that product in Annex 3-B (Product-specific rules of origin), according to the following formula:

$$QVC(FOB)(\%) \leq \frac{FOB - VNM}{FOB} * 100$$

NOTE 5

Definitions of processes referred to in sections V to VII, XIV and XV of Annex 3-B (Product-specific rules of origin)

For the purposes of the product-specific rules of origin, the following definitions apply:

- (a) "biotechnological processing" means:
 - (i) fermentation¹; or
 - (ii) biological or biotechnological culturing (including cell culturing²), hybridisation or genetic modification of:
 - (A) micro-organisms (such as bacteria and viruses (including bacteriophages)); or
 - (B) human, animal or plant cells, or algae; and
 - (iii) production, isolation or purification of cellular or intercellular structures (such as isolated genes, gene fragments and plasmids);

¹ "Fermentation" means the biotechnological process in which human cells, animal cells, plant cells, micro-organisms such as bacteria, yeasts or fungi are used to produce the products.

² "Cell culturing" means the cultivation of human cells, animal cells or plant cells under controlled conditions (such as defined temperatures, growth medium, gas mixture, pH) outside a living organism that are used to produce the products.

- (b) "chemical reaction" means a process (including a biochemical processing) which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule, with the exception of the following, which are not considered to be chemical reactions for the purposes of this definition:
- (i) dissolving in water or other solvents;
 - (ii) the elimination of solvents including solvent water; or
 - (iii) the addition or elimination of water of crystallisation;
- (c) "Chemical Vapour Deposition"(hereinafter referred to as "CVD") means heating of a carbon rich gas so that carbon deposits on a diamond seed;
- (d) "distillation" means:
- (i) atmospheric distillation: a separation process in which petroleum oils are converted, in a distillation tower, into fractions according to boiling point and the vapour then condensed into different liquefied fractions; products produced from petroleum distillation may include liquefied petroleum gas, naphtha, gasoline, kerosene, diesel or heating oil, light gas oils and lubricating oil; or

- (ii) vacuum distillation: distillation at a pressure below atmospheric but not so low that it would be classed as molecular distillation; vacuum distillation is used for distilling high-boiling and heat-sensitive materials such as heavy distillates in petroleum oils to produce light to heavy vacuum gas oils and residuum;
- (e) "High Pressure High Temperature" (hereinafter referred to as "HPHT") means the growth process of diamond from a diamond seed by subjecting carbon to extreme temperatures and pressures;
- (f) "isomer separation" means the isolation or separation of isomers from a mixture of isomers;
- (g) "Melt and Pour" means the process by which raw steel or iron is initially produced in liquid form within a steelmaking or iron making furnace and subsequently poured into its first solid state; and
- (h) "mixing and blending" means the deliberate and proportionally controlled mixing or blending (including dispersing) of materials, other than the addition of diluents, only to conform to predetermined specifications which results in the production of a product having chemical characteristics that are relevant to the purposes or uses of the product and are different from the input materials.

NOTE 6

Definitions of terms used in section XI of Annex 3-B (Product-specific rules of origin)

For the purposes of the product-specific rules of origin, the following definitions apply:

- (a) "man-made staple fibres" means synthetic or artificial filament tow, staple fibres or waste, of headings 55.01 to 55.07;
- (b) "mechanical operations" are substantial processes that physically change the characteristics of the yarn to improve its look, performance, feel and properties. Mechanical operations include spinning, gimping, heat treatment and texturizing and do not include chemical treatments and beaming;
- (c) "natural fibres" means fibres other than synthetic or artificial fibres, the use of which is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun; "natural fibres" includes horsehair of heading 05.11, silk of headings 50.02 and 50.03, wool-fibres and fine or coarse animal hair of headings 51.01 to 51.05, cotton fibres of headings 52.01 to 52.03, and other vegetable fibres of headings 53.01 to 53.05;
- (d) "printing" means a technique by which an objectively assessed function, such as colour, design, or technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques; and

- (e) "printing (as standalone operation)" means a technique by which an objectively assessed function, such as colour, design, or technical performance, is given to a textile substrate with a permanent character, using screen, roller, digital or transfer techniques combined with at least two preparatory or finishing operations (such as scouring, bleaching, mercerizing, heat setting, raising, calendaring, shrink resistance processing, permanent finishing, decatizing, impregnating, mending and burling, shearing, singeing, process of air-tumbler, process of stenter, milling, steam and shrinking, and wet decatizing), provided that the value of all the non-originating materials used does not exceed 50 % of the EXW or 45 % of the FOB value of the product.

NOTE 7

Tolerances applicable to products
containing two or more basic textile materials

1. For the purposes of this Note, basic textile materials are:
 - (a) silk;
 - (b) wool;
 - (c) coarse animal hair;
 - (d) fine animal hair;

- (e) horsehair;
- (f) cotton;
- (g) paper-making materials and paper;
- (h) flax;
- (i) true hemp;
- (j) jute and other textile bast fibres;
- (k) sisal and other textile fibres of the genus *Agave*;
- (l) coconut, abaca, ramie and other vegetable textile fibres;
- (m) synthetic man-made filaments;
- (n) artificial man-made filaments;
- (o) current-conducting filaments;
- (p) synthetic man-made staple fibres of polypropylene;
- (q) synthetic man-made staple fibres of polyester;

- (r) synthetic man-made staple fibres of polyamide;
- (s) synthetic man-made staple fibres of polyacrylonitrile;
- (t) synthetic man-made staple fibres of polyimide;
- (u) synthetic man-made staple fibres of polytetrafluoroethylene;
- (v) synthetic man-made staple fibres of poly (phenylene sulphide);
- (w) synthetic man-made staple fibres of poly (vinyl chloride);
- (x) other synthetic man-made staple fibres;
- (y) artificial man-made staple fibres of viscose;
- (z) other artificial man-made staple fibres;
- (aa) yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped;
- (bb) yarn made of polyurethane segmented with flexible segments of polyester whether or not gimped;

- (cc) products of heading 56.05 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film irrespective of whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film;
- (dd) other products of heading 56.05;
- (ee) glass fibres; and
- (ff) metal fibres.

2. When a reference to this Note is made in Annex 3-B (Product-specific rules of origin), the requirements set out in its Column 2 shall not apply as a tolerance to non-originating basic textile materials that are used in the production of a product, provided that:

- (a) the product contains two or more basic textile materials; and
- (b) the weight of the non-originating basic textile materials, taken together, does not exceed 10 % of the total weight of all the basic textile materials used.

Example: For a woollen fabric of heading 51.12 containing woollen yarn of heading 51.07, cotton yarn of heading 52.05 and materials other than basic textile materials, non-originating woollen yarn which does not satisfy the requirement set out in Annex 3-B (Product-specific rules of origin), or non-originating cotton yarn which does not satisfy the requirement set out in Annex 3-B (Product-specific rules of origin), or a combination of both, may be used, provided that their total weight does not exceed 10 % of the weight of all the basic textile materials.

3. Notwithstanding point (b) of paragraph 2, for products containing "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", the maximum tolerance is 20 %. However, the percentage of the other non-originating basic textile materials shall not exceed 10 %.

4. Notwithstanding point (b) of paragraph 2, for products containing "strip consisting of a core of aluminium foil or of a core of plastic film irrespective of whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", the maximum tolerance is 30 %. However, the percentage of the other non-originating basic textile materials shall not exceed 10 %.

NOTE 8

Other tolerances applicable to certain textile products

1. Where reference to this Note is made in Annex 3-B (Product-specific rules of origin), non-originating textile materials (with the exception of linings and interlinings) which do not satisfy the requirements set out in its Column 2 of Annex 3-B (Product-specific rules of origin) for a made-up textile product may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 9 % of the EXW or FOB value of the product.

2. Non-originating materials which are not classified under chapters 50 to 63 may be used without restriction in the production of textile products classified under chapters 50 to 63, whether or not they contain textiles.

Example: If a requirement set out in Annex 3-B (Product-specific rules of origin) provides that yarn shall be used, for a certain textile item (such as trousers), this does not prevent the use of non-originating metal items (such as buttons), because metal items are not classified under chapters 50 to 63. For the same reasons, it does not prevent the use of non-originating slide fasteners, even though slide-fasteners normally contain textiles.

3. If a requirement set out in Annex 3-B (Product-specific rules of origin) consists in a maximum value of non-originating materials, the value of the non-originating materials which are not classified under chapters 50 to 63 shall be taken into account in the calculation of the value of the non-originating materials.

PRODUCT-SPECIFIC RULES OF ORIGIN

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
SECTION I	LIVE ANIMALS; ANIMAL PRODUCTS
chapter 1	Live animals
01.01-01.06	All animals of chapter 1 are wholly obtained.
chapter 2	Meat and edible meat offal
02.01-02.10	Production in which all the materials of chapters 1 and 2 used are wholly obtained.
chapter 3	Fish and crustaceans, molluscs and other aquatic invertebrates
03.01-0305.39	Production in which all the materials of chapter 3 used are wholly obtained.
0305.41	CTH
0305.42-0305.54	Production in which all the materials of chapter 3 used are wholly obtained.
0305.59	CTH
0305.61-0306.16	Production in which all the materials of chapter 3 used are wholly obtained.

0306.17	Production in which all the materials of chapter 3 used are wholly obtained ¹ .
0306.19-03.09	Production in which all the materials of chapter 3 used are wholly obtained.
chapter 4	Dairy produce; birds' eggs; natural honey; edible products of animal origin, not elsewhere specified or included
04.01-04.10	Production in which all the materials of chapter 4 used are wholly obtained.
chapter 5	Products of animal origin, not elsewhere specified or included
05.01-05.11	Production in which all the materials of chapter 5 used are wholly obtained.
SECTION II	VEGETABLE PRODUCTS
chapter 6	Live trees and other plants; bulbs, roots and the like; cut flowers and ornamental foliage
06.01-06.04	Production in which all the materials of chapter 6 used are wholly obtained.
chapter 7	Edible vegetables and certain roots and tubers
07.01-07.14	Production in which all the materials of chapter 7 used are wholly obtained.
chapter 8	Edible fruit and nuts; peel of citrus fruit or melons
08.01-08.14	Production in which all the materials of chapter 8 used are wholly obtained.

¹ For the products classified in HS 0306.17, the alternative product-specific rule of origin "preparatory operations including peeling and deveining" applies within annual quota under the conditions specified in Appendix 3-B-4 (Origin quotas and alternatives to the product-specific rules of origin in Annex 3-B).

chapter 13	Lac; gums, resins and other vegetable saps and extracts
13.01	Production from non-originating materials of any heading provided there is processing such as refining, pressing, heat treatment, alkaline filtration.
13.02	CTSH; however, non-originating pectic substances and mucilages and thickeners may be used.
chapter 14	Vegetable plaiting materials; vegetable products not elsewhere specified or included
14.01-14.04	Production in which all the materials of chapter 14 used are wholly obtained.
SECTION III	ANIMAL, VEGETABLE OR MICROBIAL FATS AND OILS AND THEIR CLEAVAGE PRODUCTS; PREPARED EDIBLE FATS; ANIMAL OR VEGETABLE WAXES
chapter 15	Animal or vegetable fats and oils and their cleavage products; prepared edible fats; animal or vegetable waxes
15.01-15.06	CTH
15.07-15.08	CC
15.09-15.10	Production in which all the vegetable materials used are wholly obtained.

16.01-16.02	Production in which all the materials of chapters 1, 2 and 16 used are wholly obtained.
16.03	Production in which all the materials of chapters 2, 3 and 16 used are wholly obtained.
16.04-1605.20	Production in which all the materials of chapters 3 and 16 used are wholly obtained.
1605.21-1605.29	Production in which all the materials of chapters 3 and 16 used are wholly obtained ¹ .
1605.30-1605.90	Production in which all the materials of chapters 3 and 16 used are wholly obtained.
chapter 17	Sugars and sugar confectionery
17.01	CC
17.02	CTH, provided that the total weight of non-originating materials of headings 11.01 to 11.08, 17.01 and 17.03 used does not exceed 20 % of the weight of the product.
17.03	CTH
17.04	CTH, provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.

¹ For the products classified in HS 1605.21-1605.29, the alternative product-specific rule of origin "CTH" applies within annual quotas under the conditions specified in Appendix 3-B-4 (Origin quotas and alternatives to the product-specific rules of origin in Annex 3-B).

19.04	CTH, provided that: – non-originating materials of headings 10.06, 11.01 to 11.08 used are milled, malted or otherwise processed from materials of other chapters in the territory of a Party; however, non-originating materials of headings 11.01 to 11.08 which do not respect that condition may be used provided that their total weight does not exceed 20 % of the weight of the product; and – the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 30 % of the weight of the product.
19.05	CTH, provided that: – non-originating materials of headings 10.06, 11.01 to 11.08 used are milled, malted or otherwise processed from materials of other chapters in the territory of a Party; however, non-originating materials of headings 11.01 to 11.08 which do not respect that condition may be used provided that their total weight does not exceed 20 % of the weight of the product; and – the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
chapter 20	Preparations of vegetables, fruit, nuts or other parts of plants
20.01 – 20.05	Production in which all the materials of chapter 7 and 8 used are wholly obtained.
20.06	Production in which all the materials of chapter 7 and 8 used are wholly obtained and provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
20.07	CTH, provided that the total weight of non-originating materials used does not exceed 30 % of the weight of the product.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
2008.11	CTH, provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
2008.19-2008.80	Production in which all the materials of chapter 7 and 8 used are wholly obtained and provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
2008.91-2008.93	CTH, provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
2009.11–2009.79	Production in which all the materials of chapter 7 and 8 used are wholly obtained and provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
2009.81–2009.90	CTH, provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 40 % of the weight of the product.
chapter 21	Miscellaneous edible preparations
21.01	CTH, provided that the total weight of non-originating materials of headings 17.01 and 17.02 used does not exceed 30 % of the weight of the product.

chapter 55	Man-made staple fibres
55.01-55.07	Extrusion of man-made fibers.
55.08-55.11	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
55.12-55.16	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Yarn dyeing combined with weaving; Weaving combined with dyeing or with coating or with laminating; Twisting or any mechanical operation combined with weaving; Weaving combined with printing; or Printing (as standalone operation).
chapter 56	Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof
56.01	Wadding formation; or Bonding, coating, flocking, laminating, or metalizing combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing), provided that the value of non-originating materials used does not exceed 50 % of the EXW or 45 % of the FOB of the product.

56.02	
- Needleloom Felt:	Extrusion of man-made fibres combined with fabric formation, however: – non-originating polypropylene filament of heading 54.02, – non-originating polypropylene fibres of heading 55.03, or 55.06, or – non-originating polypropylene filament tow of heading 55.01, of which the denomination in all cases of a single filament or fibre is less than 9 decitex, may be used, provided that their total value does not exceed 40 % of the EXW or 35 % of the FOB of the product; or Non-woven fabric formation alone in the case of felt made from natural fibres.
- Others:	Extrusion of man-made fibres combined with fabric formation; or Non-woven fabric formation alone in the case of other felt made from natural fibres.
5603.11-5603.14	Production from – directionally or randomly oriented filaments; or – substances or polymers of natural or man-made origin; followed in both cases by bonding into a nonwoven.
5603.91-5603.94	Production from – directionally or randomly oriented staple fibres; or – chopped yarns, of natural or man-made origin; followed in both cases by bonding into a nonwoven.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
5604.10	Production from rubber thread or cord, not textile covered.
5604.90	Spinning of natural fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
56.05	Spinning of natural or man-made staple fibres; Extrusion of man-made fibres combined with spinning; or Twisting combined with any mechanical operation.
56.06	Extrusion of man-made fibres combined with spinning; Twisting combined with gimping; Spinning of natural or man-made staple fibres; or Flocking combined with dyeing.
56.07-56.09	Spinning of natural fibres; or Extrusion of man-made fibres combined with spinning.
chapter 57	Carpets and other textile floor coverings Chapter note: For products of this chapter non-originating jute fabric may be used as a backing.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
57.01-57.05	Spinning of natural or man-made staple fibres combined with weaving or with knotting or with tufting; Extrusion of man-made filament yarn combined with weaving or with knotting or with tufting; Production from coir yarn or sisal yarn or jute yarn or classical ring spun viscose yarn; Tufting combined with dyeing or with printing; Tufting or weaving or knotting of man-made filament yarn combined with coating or with laminating; Flocking combined with dyeing or with printing; or Extrusion of man-made fibres combined with nonwoven techniques including needle punching.
chapter 58	Special woven fabrics; tufted textile fabrics; lace; tapestries; trimmings; embroidery
58.01-58.04	Spinning of natural or man-made staple fibres combined with weaving or with tufting; Extrusion of man-made filament yarn combined with weaving or with tufting; Weaving combined with dyeing or with flocking or with coating or with laminating or with metalizing; Tufting combined with dyeing or with printing; Flocking combined with dyeing or with printing; Yarn dyeing combined with weaving; Weaving combined with printing; or Printing (as standalone operation).

chapter 59	Impregnated, coated, covered or laminated textile fabrics; textile articles of a kind suitable for industrial use
59.01	Weaving combined with dyeing or with flocking or with coating or with laminating or with metalising; or Flocking combined with dyeing or with printing.
59.02	
- Containing not more than 90 % by weight of textile materials:	Weaving.
- Others:	Extrusion of man-made fibres combined with weaving.
59.03	Weaving, knitting or crocheting combined with impregnating or with coating or with covering or with laminating or with metalising; Weaving, knitting or crocheting combined with printing; or Printing (as standalone operation).
59.04	Calendering combined with dyeing, coating, laminating or metalising; or Weaving combined with dyeing or with coating or with laminating or with metalising.
59.05	
- Impregnated, coated, covered or laminated with rubber, plastics or other materials:	Weaving, knitting or non-woven fabric formation combined with impregnating or with coating or with covering or with laminating or with metalising.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
- Others:	Spinning of natural or man-made staple fibres combined with weaving; Extrusion of man-made filament yarn combined with weaving; Weaving, knitting or nonwoven fabric formation combined with dyeing or with coating or with laminating; Weaving combined with printing; or Printing (as standalone operation).
59.06	
- Knitted or crocheted fabrics:	Spinning of natural or man-made staple fibres combined with knitting or with crocheting; Extrusion of man-made filament yarn combined with knitting or with crocheting; Knitting or crocheting combined with rubberising; or Rubberising combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing) provided that the value of non-originating materials used does not exceed 50 % of the EXW or 45 % of the FOB of the product.
- Other fabrics made of synthetic filament yarn, containing more than 90 % by weight of textile materials:	Extrusion of man-made fibres combined with weaving.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
- Others:	Weaving, knitting or nonwoven process combined with dyeing or with coating or with rubberising; Yarn dyeing combined with weaving, knitting or nonwoven process; or Rubberising combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing) provided that the value of non-originating materials used does not exceed 50 % of the EXW or 45 % of the FOB of the product.
59.07	Weaving, knitting or nonwoven fabric formation combined with dyeing or with printing or with coating or with impregnating or with covering; Flocking combined with dyeing or with printing; or Printing (as standalone operation).
59.08	
- Incandescent gas mantles, impregnated:	Production from tubular knitted or crocheted gas-mantle fabric.
- Others:	CTH
59.09-59.11	Spinning of natural or of man-made staple fibres combined with weaving; Extrusion of man-made fibres combined with weaving; Weaving combined with dyeing or with coating or with laminating; or Coating, flocking, laminating or metalising combined with at least two other main preparatory or finishing operations (such as calendering, shrink-resistance processes, heat setting, permanent finishing) provided that the value of non-originating materials used does not exceed 50 % of the EXW or 45 % of the FOB of the product.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
chapter 60	Knitted or crocheted fabrics
60.01-60.06	Spinning of natural or man-made staple fibres combined with knitting or with crocheting; Extrusion of man-made filament yarn combined with knitting or with crocheting; Knitting or crocheting combined with dyeing or with flocking or with coating or with laminating or with printing; Flocking combined with dyeing or with printing; Yarn dyeing combined with knitting or with crocheting; or Twisting or texturing combined with knitting or with crocheting provided that the value of non-originating non-twisted or non-textured yarns used does not exceed 50 % of the EXW or 45 % of the FOB of the product.
chapter 61	Articles of apparel and clothing accessories, knitted or crocheted
61.01-61.17	
- Obtained by sewing together or otherwise assembling, two or more pieces of knitted or crocheted fabric which have been either cut to form or obtained directly to form:	Knitting or crocheting combined with making-up including cutting of fabric.

Column 1 Harmonized System classification (2022) including specific description	Column 2 Product-specific rule of origin
- Others:	Spinning of natural or man-made staple fibres combined with knitting or with crocheting; Extrusion of man-made filament yarn combined with knitting or with crocheting; or Knitting and making-up in one operation.
chapter 62	Articles of apparel and clothing accessories, not knitted or crocheted
62.01	Weaving combined with making-up including cutting of fabric; or Making-up including cutting of fabric preceded by printing (as standalone operation).
62.02	
- Embroidered:	Weaving combined with making-up including cutting of fabric; or Making up combined with embroidery, provided that the value of non-originating unembroidered fabric used does not exceed 40 % of the EXW or 35 % of the FOB of the product.
- Others:	Weaving combined with making-up including cutting of fabric; or Making-up including cutting of fabric preceded by printing (as standalone operation).
62.03	Weaving combined with making-up including cutting of fabric; or Making-up including cutting of fabric preceded by printing (as standalone operation).

chapter 63	Other made up textile articles; sets; worn clothing and worn textile articles; rags
63.01–63.04	
- Of felt, of nonwovens:	Nonwoven fabric formation combined with making-up including cutting of fabric.
- Others: -- Embroidered:	Weaving or knitting or crocheting combined with making-up including cutting of fabric; or Making up combined with embroidery, provided that the value of non-originating unembroidered fabric (other than knitted or crocheted) used does not exceed 40 % of the EXW or 35 % of the FOB of the product.
-- Others:	Weaving, knitting or crocheting combined with making-up including cutting of fabric.
63.05	Extrusion of man-made fibres or spinning of natural or man-made staple fibres, combined with weaving or with knitting and making-up including cutting of fabric.
63.06	
- Of nonwovens:	Nonwoven fabric formation combined with making-up including cutting of fabric.
- Others:	Weaving combined with making-up including cutting of fabric.
63.07	MaxNOM 40 % (EXW); or Min QVC 65 % (FOB).
63.08	Each item in the set must satisfy the concerned PSR which would apply to it if it were not included in the set.

ORIGIN QUOTAS AND ALTERNATIVES
TO THE PRODUCT-SPECIFIC RULES OF ORIGIN
IN ANNEX 3-B

1. For the products listed in the tables of this Appendix, the corresponding rules of origin are alternative to those set out in Annex 3-B (Product-specific rules of origin), within the limits of the applicable annual quota.

2. When the origin of a product is determined pursuant to the tables of this Appendix, box 7 (origin criteria code) of the Statement on Origin in Annex 3-C (Template of the Statement on Origin), or box 5 (origin criterion) of the Certificate of Origin in Appendix 3-E-2 (Certification of Origin issued by authorised agencies), or box 7 (remarks) in Appendix 3-E-1 (Specimens of a Certification of Origin and of an application for a Certificate of Origin), as appropriate, shall also contain the following phrase:

"Product originating in accordance with the PSR specified in Appendix 3-B-4 (Origin quotas and alternatives to the product-specific rules of origin in Annex 3-B)".

3. The importing Party shall manage the origin quotas on a first-come first-served basis and shall calculate the quantity of products entered under these origin quotas on the basis of that Party's imports. The origin quota shall be administered by the importing Party on a calendar year basis with the full quota volume to be made available on 1 January of each year. Should the Agreement enter into force on a date other than 1 January, the volume of the quota for the remainder of the year shall be prorated and be calculated as a proportion of the annual quota.
4. In the European Union, any quantities referred to in this Appendix shall be managed by the European Commission, which shall take all administrative actions it deems advisable for their efficient management in respect of the applicable law in the European Union.
5. In India, any quantities referred to in this Appendix shall be managed by its competent authority, which shall take all administrative actions it deems advisable for their efficient management in respect of the applicable law in India.

AUTHENTICATION PROCEDURE FOR THE STATEMENT ON ORIGIN

For the purposes of enabling the importing Party to establish the authenticity of a Statement on Origin, in accordance with Article 3.16 (Claim for preferential tariff treatment):

- (a) The exporting Party shall ensure that the Statements on Origin made out by its exporters are uploaded in or generated through an electronic system administered by the competent authority of the exporting Party. For such upload or generation, the exporting Party shall ensure that the identity of the exporters is authenticated. In the European Union, an exporter shall be authenticated using the Uniform User Management & Digital Signatures (hereinafter referred to as "UUM&DS"¹) system, an Identity and Access Management system set up by a Member State, or an equivalent authentication system. In India, an exporter shall be authenticated using a login and a password after verification of their credentials. Such authentication of the exporter shall enable the establishment of the identity of the exporter for the purposes of attributing to that exporter a Statement on Origin bearing a unique identification number. A Statement on Origin uploaded or generated following such authentication procedures through the electronic system shall not require a signature.
- (b) The customs authority of the importing Party shall have access to the system referred to in point (a) in order to view a Statement on Origin and to verify the authenticity of that Statement on Origin, on the basis of the unique identification number of the Statement on Origin in combination with the exporter reference number in Annex 3-C (Template of the Statement on Origin).

¹ In the European Union, the UUM&DS system is an access management system for the purposes of providing secure authorised access to the EU Customs electronic systems for EU Economic Operators.

- (c) Where the customs authority of the importing Party is not able to confirm the authenticity of a Statement on Origin through the electronic system, it shall inform the importer accordingly and provide the importer with 20 working days to regularise the situation before denying the preferential tariff treatment.
- (d) Where the customs authority of the importing Party is unable to confirm the authenticity of a Statement on Origin pursuant to point (b) due to a temporary technical issue in the exporting Party's electronic system referred to in point (a), as notified by the exporting Party through its designated nodal contact point, the customs authority of the importing Party may decide to suspend the granting of preferential tariff treatment to the product concerned pending confirmation of the authenticity of the Statement of Origin in the electronic system. In such cases, the release of the products shall be offered to the importer subject to appropriate precautionary measures, including guarantees as provided for in the importing Party's laws and regulations. As soon as the customs authority of the importing Party has confirmed the authenticity of the Statement on Origin, it shall terminate the suspension and grant preferential tariff treatment in accordance with its laws and regulations.
- (e) Where the technical issues referred to in point (d) are recurring in nature, thereby impeding the authentication procedure, or in the event of a serious technical failure of the electronic system in the exporting Party referred to in point (a), the matter shall be brought to the attention of the other Party without delay. In such circumstances, the Parties may decide that the exporting Party applies the procedure provided for in Article 3.16(6) (Claim for preferential tariff treatment) until the electronic system has been restored and shall inform their importers and exporters accordingly.

CERTIFICATION OF ORIGIN

ARTICLE 3-E.1

Procedure for the issuance of a Certificate of Origin

1. A Certificate of Origin¹ shall be issued electronically or otherwise by the competent authority of the exporting Party on application having been made in writing by the exporter, or under the exporter's responsibility by their authorised representative, in accordance with the laws and regulations of the exporting Party. For this purpose:
 - (a) for the European Union: the exporter or their authorised representative shall fill out both the Certificate of Origin and the application form for a Certificate of Origin, specimens of which appear in Appendix 3-E-1 (Specimens of a Certification of Origin and of an application for a Certificate of Origin). These forms shall be completed in one of the languages in which this Agreement is drawn up and in accordance with the laws and regulations of the exporting Party. If they are hand-written, they shall be completed in ink in printed characters. In case the Certificate of Origin is not issued in English, the exporter shall, in addition, provide a translation of the Certificate of Origin, or provide a Statement on Origin in accordance with Annex 3-C (Template of the Statement on Origin) corresponding to the originating products specified in the Certificate of Origin. In the latter case, Article 3.16(5) (Claim for preferential tariff treatment) does not apply; and

¹ In the European Union, the Certificate of Origin shall be a "MOVEMENT CERTIFICATE".

(b) for India: the exporter or their authorised representative shall submit a written or electronic application for a Certificate of Origin together with appropriate supporting documents proving that the products to be exported qualify for the issuance of a Certificate of Origin. The Certificate of Origin shall follow the format in Appendix 3-E-2 (Certification of Origin issued by authorised agencies) and shall be completed in English.

2. The exporter or producer of a product for which a Certificate of Origin has been applied for shall be prepared to submit at any time, at the request of the competent authority of the exporting Party, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of Chapter 3 (Rules of Origin and origin procedures).

3. A Certificate of Origin shall be issued by the competent authority of the exporting Party if the products concerned can be considered as products originating in the exporting Party and fulfil the other requirements of Chapter 3 (Rules of Origin and origin procedures).

4. The competent authority issuing Certificates of Origin shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of Chapter 3 (Rules of Origin and origin procedures). For this purpose, they shall apply a risk management system in order to selectively conduct pre-export verification, and they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 1 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

5. The date of issuance of the Certificate of Origin shall be indicated in box 11 of the Certificate of Origin issued by the European Union in Appendix 3-E-1 (Specimens of a Certification of Origin and of an application for a Certificate of Origin) and in box 10 for the Certificate of Origin issued by India in Appendix 3-E-2 (Certification of Origin issued by authorised agencies).

6. The Certificate of Origin shall be issued by the customs authority and be made available to the exporters as soon as actual exportation has been effected or ensured.

ARTICLE 3-E.2

Certificates of Origin issued retrospectively

1. Notwithstanding paragraph 6 of Article 1 (Procedure for the issuance of a Certificate of Origin), a Certificate of Origin may also be issued after exportation of the products to which it relates in specific situations where:

- (a) it was not issued at the time of exportation because of involuntary errors or omissions or other valid reasons;
- (b) it is demonstrated to the competent authority that a Certificate of Origin was issued but was not accepted at importation in the prescribed manner¹; or

¹ For greater certainty, such reasons may include that the Certificate of Origin has not been stamped and signed, that not all mandatory boxes are filled in or that the stamp used was not timely notified.

- (c) the final destination of the products concerned was not known at the time of exportation and was determined during their transportation, storage or after splitting of consignments in accordance with Article 3.15 (Transport).
2. For the implementation of paragraph 1 of this Article, the exporter shall indicate in their application the place and date of exportation of the products to which the Certificate of Origin relates, and state the reasons for the request.
3. The competent authority may issue a Certificate of Origin retrospectively only after verifying that the information supplied in the exporter's application conforms with the corresponding records in possession of the issuing authority and the originating status of the exported product.
4. Certificates of Origin issued retrospectively shall be endorsed with the following phrase in English: "ISSUED RETROSPECTIVELY".
5. The endorsement referred to in paragraph 4 shall be inserted in box 7 of the Certificate of Origin issued by the European Union in Appendix 3-E-1 (Specimens of a Certification of Origin and of an application for a Certificate of Origin) and in box 8 for the Certificate of Origin issued by India in Appendix 3-E-2 (Certification of Origin issued by authorised agencies).

ARTICLE 3-E.3

Issuance of a duplicate Certificate of Origin

1. In the event of theft, loss or destruction of an original Certificate of Origin, the exporter may apply to the competent authority which issued it for a duplicate made out on the basis of the export documents in the competent authority's possession.
2. The duplicate issued in this way must be endorsed with the following word in English: "DUPLICATE".
3. The endorsement referred to in paragraph 2 shall be inserted in box 7 of the duplicate Certificate of Origin issued by the European Union in Appendix 3-E-1 (Specimens of a Certification of Origin and of an application for a Certificate of Origin) and in box 8 for the Certificate of Origin issued by India in Appendix 3-E-2 (Certification of Origin issued by authorised agencies).
4. The duplicate, which must bear the date of issue of the original Certificate of Origin, shall take effect as from that date.

ARTICLE 3-E.4

Corrections of Certificate of Origin in India

1. Neither erasures nor superimposition shall be allowed on the Certificate of Origin. Any alteration must be made by striking out the erroneous text and making any addition required. Unused spaces must be crossed out to prevent any subsequent addition.
2. In the case of a Certificate of Origin issued by authorised agencies, alterations referred to in paragraph 1 shall be approved and certified by the relevant issuing authority.

ARTICLE 3-E.5

Cooperation between competent authorities

1. The competent authorities of the Parties shall provide each other, through the European Commission, with specimen impressions of stamps used by their competent authorities for the issue of Certificates of Origin and with the addresses of the customs authorities responsible for verifying those certificates.
2. Pursuant to Section B (Origin procedures) of Chapter 3 (Rules of origin and origin procedures), boxes 13 and 14 of the Certificate of Origin in Appendix 3-E-1 (Specimens of a Certification of Origin and of an application for a Certificate of Origin) do not apply to this Agreement.

OVERLEAF NOTES

1. **ORIGIN CRITERIA:** For goods that meet the origin criteria, the exporter or producer must indicate in box 5 of this form, the origin criteria met, in the manner shown in the following table:

Circumstances of production or manufacture in the first country named in box 1 of this form	Insert in box 5
Goods wholly obtained or produced in the territory of the exporting Party	"WO"
Goods that fulfil the requirements set out in Rule (Sufficient Working and Processing)	PSR
Goods that fulfil the requirements set out in Rule (Accumulation of Origin)	cumulation

2. **EACH ITEM MUST QUALIFY:** It should be noted that all the goods in a consignment must qualify separately in their own right. This is of particular relevance when similar articles of different sizes or spare parts are sent.
3. **DESCRIPTION OF GOODS:** The description of goods must be sufficiently detailed to enable the goods to be identified by the customs officers examining them.
4. **HARMONIZED SYSTEM CLASSIFICATION NUMBER:** The Harmonized System classification number (six digits) must be that of the exporting Party.

JOINT DECLARATION
CONCERNING THE PRINCIPALITY OF ANDORRA

1. Products originating in the Principality of Andorra falling within HS chapters 25 to 97 shall, subject to paragraph 3 and the provisions of Chapter 3 (Rules of origin and origin procedures), be accepted by India as originating in the European Union within the meaning of this Agreement.
2. Products originating in the Principality of Andorra falling within HS chapters 1 to 24 are not subject to the treatment provided in the previous paragraph.
3. Paragraph 1 applies provided that the Principality of Andorra applies the same preferential tariff treatment as the European Union applies to products falling within HS chapters 25 to 97 originating in India by virtue of the customs union established by Council Decision 90/680/EEC of 26 November 1990 on the conclusion of an Agreement in the form of an exchange of letters between the European Economic Community and the Principality of Andorra, and provided that the customs union remains in force.
4. Chapter 3 (Rules of origin and origin procedures) applies mutatis mutandis for the purposes of this Joint Declaration.

5. The European Union shall notify India promptly on any changes that affect the preferential treatment provided by this Joint Declaration. The Committee on Customs and Rules of Origin shall, on the request of either Party, meet to discuss these changes and seek to find a mutually satisfactory solution.

JOINT DECLARATION
CONCERNING THE REPUBLIC OF SAN MARINO

1. Products originating in the Republic of San Marino shall, subject to paragraph 2 and the provisions of Chapter 3 (Rules of origin and origin procedures), be accepted by India as originating in the European Union within the meaning of this Agreement.
2. Paragraph 1 applies provided that the Republic of San Marino applies the same preferential tariff treatment as the European Union applies to products originating in India, by virtue of the Agreement on Cooperation and Customs Union between the European Economic Community and the Republic of San Marino, done at Brussels on 16 December 1991 and provided that the customs union remains in force.
3. Chapter 3 (Rules of origin and origin procedures) applies mutatis mutandis for the purposes of this Joint Declaration.
4. The European Union shall notify India promptly on any changes that affect the preferential treatment provided by this Joint Declaration. The Committee on Customs and Rules of Origin shall, on the request of either Party, meet to discuss these changes and seek to find a mutually satisfactory solution.

COMPETENT AUTHORITIES

SECTION 1

Competent authorities of the European Union

Official controls are shared between the European Commission and the authorities of the Member States. In this respect, the following applies:

- (a) for exports to India, the Member States are responsible for the control of the production circumstances and requirements, including audits and issuing health certificates in relation to the adopted SPS measures and requirements;
- (b) for imports from India, the Member States are responsible for the control of compliance of the imports with the European Union's import conditions; and
- (c) the European Commission is responsible for the overall coordination, inspection or audits of control systems and the necessary measures, including legislative action to ensure uniform application of standards and requirements of Chapter 5 (Sanitary and phytosanitary measures).

SECTION 2

Competent authorities of India

The authorities recognised by the Government of India as responsible for developing and administering the SPS measures.

ARRANGEMENT
REFERRED TO IN ARTICLE 6.9(4) (MARKET SURVEILLANCE)
FOR THE SYSTEMATIC EXCHANGE OF INFORMATION
IN RELATION TO THE SAFETY OF PRODUCTS
AND RELATED PREVENTIVE, RESTRICTIVE
AND CORRECTIVE MEASURES

This Annex shall establish an arrangement for the regular exchange of information between the European Union's Safety Gate system, or its successor, and India's database relating to market surveillance and product safety.

In accordance with Article 6.9(8) (Market surveillance) of this Agreement, the arrangement shall specify the type of information to be exchanged, the modalities for the exchange and the application of confidentiality and personal data protection rules.

ARRANGEMENT
REFERRED TO IN ARTICLE 6.9(5) (MARKET SURVEILLANCE)
FOR THE REGULAR EXCHANGE OF INFORMATION
REGARDING MEASURES TAKEN
ON NON-COMPLIANT PRODUCTS, OTHER THAN
THOSE COVERED BY ARTICLE 6.9(4) (MARKET SURVEILLANCE)

This Annex shall establish an arrangement for the regular exchange of information, including the exchange of information by electronic means, regarding measures taken on non-compliant products, other than those covered by Article 6.9(4) (Market surveillance) of this Agreement.

In accordance with Article 6.9(8) (Market surveillance) of this Agreement, the arrangement shall specify the type of information to be exchanged, the modalities for the exchange and the application of confidentiality and personal data protection rules.
