PROFESSIONAL SERVICES

ARTICLE 8-B.1

Scope and objectives

1. This Annex applies to measures affecting the supply of professional services regulated by each Party, including in all or some Member States and in all or some states and territories of India.
2. Nothing in this Annex shall prevent a Party from requiring that natural persons possess the necessary professional qualifications specified in the territory where the service is supplied, for the regulated profession concerned.
3. This Annex establishes a framework to facilitate mutual recognition of professional qualifications and sets out the general conditions for the negotiation of Mutual Recognition Agreements (hereinafter referred to as "MRAs") for regulated professions.
4. An MRA adopted pursuant to this Annex applies to the territories of the European Union and India.

ARTICLE 8-B.2

Definitions

For the purposes of this Annex:

- (a) "professional qualifications" means qualifications attested by evidence of formal qualification, education or professional experience, including an attestation of professional registration, a licence or its equivalent; and
- (b) "regulated profession" means a service, the access to or pursuit of which, including the use of a title or designation, is subject to the possession of specific professional qualifications under the laws and regulations of the Parties, and in particular administrative procedures.

ARTICLE 8-B.3

Recognition

1. A Party shall not accord recognition in a manner that would constitute a means of discrimination in the application of its criteria for the authorisation, licensing or certification of a service supplier, or that would constitute a disguised restriction on trade in services.

2. The Parties shall encourage the establishment of dialogue between their relevant professional bodies or authorities to share and facilitate understanding of their respective qualifications, registration requirements and processes, with a view to facilitating mutual recognition of professional qualifications or experience obtained.
3. The Parties shall encourage their relevant professional bodies or authorities to identify and jointly communicate to the Parties, to the extent practicable within 12 months from the date of entry into force of this Agreement, professional service sectors where interest may exist for mutual recognition of professional qualifications or experience obtained.
4. Upon receipt of the communication referred to in paragraph 3, the Parties shall review it and jointly decide on the negotiations and nature of an agreement or arrangement providing for mutual recognition of professional qualifications. Such agreement or arrangement shall be annexed to this Agreement pursuant to Article 20.5 (Amendments) and shall form an integral part of this Agreement.
5. Each Party shall encourage their relevant authorities to implement, where feasible, a temporary, limited or project-specific licensing or registration regime for service suppliers of the other Party based on license or recognised professional body membership of the other Party without the need for a further written examination. Any temporary, limited or project-specific licence granted under this paragraph should not prevent a service supplier of the other Party from gaining a license if that service supplier satisfies the applicable licensing requirements.
6. When developing agreements on the recognition of professional qualifications, licensing and registration, the Parties shall encourage their professional bodies to take into consideration, as appropriate, plurilateral or multilateral agreements or international frameworks.

ARTICLE 8-B.4

Collaboration on regulated professions

1. To facilitate the activities referred to in Article 8-B.3 (Recognition), each Party shall encourage its relevant bodies to establish a dialogue to share information and good practices on professional standards and criteria, which may include the following topics:
 - (a) education, training and qualifications;
 - (b) examinations;
 - (c) experience;
 - (d) conduct and ethics;
 - (e) professional development and re-certification;
 - (f) scope of practice;
 - (g) local knowledge; and
 - (h) consumer protection.
2. Each Party shall encourage its professional bodies to consider, as appropriate, plurilateral or multilateral agreements or international frameworks that relate to regulated professions.

3. 4. Upon request of a Party and to the extent practicable, each Party shall share information, including information concerning skills shortages as well as standards and criteria for the licensing and certification of professional service suppliers and information relating to the relevant regulatory or competent authorities, to support the pursuit of the objectives of this Annex.

1. Each Party shall permit a financial service supplier of the other Party that is established in and supplying a new financial service in the territory of the other Party, to supply such new financial service, through its commercial presence in the territory of the Party, that the Party would permit its own financial service suppliers in like situations to supply without adopting a law or modifying an existing law¹.

SCHEDULE OF EXISTING MEASURES OF THE EUROPEAN UNION

Headnotes

1. This Schedule sets out, pursuant to Article 8.9 (Non-conforming measures), existing measures of the European Union that are not subject to some or all of the obligations imposed by:
 - (a) Article 8.4(1) and (2) (Market access) on market access;
 - (b) Article 8.4(3) (Market access) on local presence;
 - (c) Article 8.5(1) to (5) (National treatment) on national treatment;
 - (d) Article 8.6 (Most-favoured-nation treatment); or
 - (e) Article 8.5(6) (National treatment) on senior management and boards of directors.
2. Each reservation in this Schedule sets out the following elements:
 - (a) "sector" refers to the general sector in which the reservation is taken;
 - (b) "sub-sector" refers, where applicable, to the specific sector in which the reservation is taken;

- (c) "industry classification" refers, where applicable, to the activity covered by the non-conforming measure according to the CPC, or as otherwise expressly described in that reservation;
- (d) "obligations concerned" specifies the obligation or obligations referred to in paragraph 1 that, pursuant to Article 8.9 (Non-conforming measures), do not apply to the listed measure or measures;
- (e) "level of government" indicates the level of government maintaining the listed measure or measures;
- (f) "measures" identifies the laws or other measures for which the reservation is taken. A "measure" cited in the "measures" element:
 - (i) means the measure as amended, continued or renewed as of the date of entry into force of this Agreement;
 - (ii) includes any subordinate measure adopted or maintained under the authority of and consistent with the measure; and
 - (iii) in respect of this Schedule, includes any laws or other measures which implement a directive at Member State level; and
- (g) "description" sets out the non-conforming aspects of the existing measure for which the reservation is taken.

3. In the interpretation of a reservation, all elements of the reservation shall be considered. A reservation shall be interpreted in light of the relevant obligations of the Chapters or Sections against which the reservation is taken. The "measures" element shall prevail over all other elements.
4. For the purposes of this Schedule, "CPC" means the Provisional Central Product Classification (Statistical Papers, Series M No. 77, Department of International Economic and Social Affairs, Statistical Office of the United Nations, New York, 1991).
5. For the purposes of this Schedule, a reservation for a requirement to have a local presence in the territory of the European Union is made against Article 8.4(3) (Market access) and not against Article 8.4(1) and (2) (Market access) or Article 8.5(1) to (5) (National treatment).
6. A reservation taken at the level of the European Union applies to a measure of the European Union, to a measure of a Member State at the central level or to a measure of a government within a Member State, unless the reservation excludes a Member State. A reservation taken by a Member State applies to a measure of a government at the central, regional or local level within that Member State. For the purposes of the entries of Belgium, the central level of government covers the federal government and the governments of the regions and the communities as each of them holds equipollent legislative powers. For the purposes of the entries of the European Union and its Member States, a regional level of government in Finland means the Åland Islands.

7. The list of reservations below does not include measures relating to qualification requirements and procedures, technical standards and licensing requirements and procedures where they do not constitute a limitation within the meaning of Article 8.4 (Market access) or Article 8.5 (National treatment). These measures may include, in particular, the need to obtain a licence, to satisfy universal service obligations, to have recognised qualifications in regulated sectors, to pass specific examinations, including language examinations, to fulfil a membership requirement of a particular profession, such as membership in a professional organisation, to have a local agent for service, or to maintain a local address, or any other non-discriminatory requirements that certain activities may not be carried out in protected zones or areas. While not listed, such measures continue to apply.

8. For greater certainty, for the European Union, the obligation to grant national treatment does not entail the requirement to extend to persons of India the treatment granted in a Member State, pursuant to the Treaty on the Functioning of the European Union, or any measure adopted pursuant to that Treaty, including their implementation in the Member States, to:

- (a) natural persons or residents of another Member State; or
- (b) juridical persons constituted or organised under the law of another Member State or of the European Union and having their registered office, central administration or principal place of business in the European Union.

9. Treatment granted to juridical persons established by services suppliers of India in accordance with the law of the European Union and having their registered office, central administration or principal place of business within the European Union, is without prejudice to any condition or obligation, consistent with Chapter 8 (Trade in services), which may have been imposed on such juridical persons when established in the European Union, and which shall continue to apply.

10. For greater certainty, non-discriminatory measures do not constitute a market access limitation within the meaning of Article 8.4(1) and (2) (Market access) for any measures:

- (a) requiring the separation of the ownership of infrastructure from the ownership of the goods or services provided through that infrastructure to ensure fair competition, for example in the fields of energy, transportation and telecommunications;
- (b) restricting the concentration of ownership to ensure fair competition;
- (c) seeking to ensure the conservation and protection of natural resources and the environment, including a limitation on the availability, number and scope of concessions granted, and the imposition of a moratorium or ban;
- (d) limiting the number of authorisations granted because of technical or physical constraints, for example telecommunications spectra and frequencies; or
- (e) requiring that a certain percentage of the shareholders, owners, partners or directors of an enterprise be qualified or practice a certain profession such as lawyers or accountants.

11. The reservations of the European Union are without prejudice to the rights and obligations of the European Union under GATS.

12. This Schedule applies only to the territory of the European Union in accordance with Article 1.3(bb)(i) (General definitions) and is only relevant in the context of trade relations between the European Union and its Member States with India. It does not affect the rights and obligations of the Member States under European Union law.

13. With respect to financial services, unlike foreign subsidiaries, branches established directly in a Member State by a non-European Union financial institution are not, with certain limited exceptions, subject to prudential regulations harmonised at European Union level which enable such subsidiaries to benefit from enhanced facilities to set up new establishments and to provide cross-border services throughout the European Union. Therefore, such branches receive an authorisation to operate in the territory of a Member State under conditions equivalent to those applied to domestic financial institutions of that Member State, and may be required to satisfy a number of specific prudential requirements such as, in the case of banking and securities, separate capitalisation and other solvency requirements and reporting and publication of accounts requirements or, in the case of insurance, specific guarantee and deposit requirements, a separate capitalisation, and the localisation in the Member State concerned of the assets representing the technical reserves and at least one third of the solvency margin.

14. This Schedule shall be read in conjunction with Annex 8-G (Scope, definitions and obligations related to international maritime transport services of the European Union).

15. If the European Union has set out in this Schedule a reservation which applies to mode 1 or mode 3, the reservation also applies to temporary stay of natural persons of India, to the extent that the relevant measure set out in the reservation affects the temporary stay in the European Union of natural persons of India covered under Annex 8-A (Entry and temporary stay of natural persons).

16. Article 8.5 (National treatment) and Article 8.6 (Most-favoured-nation treatment) do not apply to any measure that constitutes an exception to, or a derogation from, Articles 3 or 4 of the TRIPS Agreement, as specifically provided for in Articles 3 to 5 of the TRIPS Agreement.

With respect to Market access (mode 3), National treatment (mode 3), Senior management and boards of directors:

This reservation applies only to health, social or education services:

In the EU (applies also to the regional level of government): Any Member State, when selling or disposing of its equity interests in, or the assets of, an existing state enterprise or an existing governmental entity providing health, social or education services (CPC 93, 92), may prohibit or impose limitations on the ownership of such interests or assets, and/or restrict the ability of owners of such interests and assets to control any resulting enterprise, with respect to investors of India or their enterprises. With respect to such a sale or other disposition, any Member State may adopt or maintain any measure relating to the nationality of senior management or members of the boards of directors, as well as any measure limiting the number of suppliers.

For the purposes of this reservation:

- (i) any measure maintained or adopted after the date of entry into force of this Agreement that, at the time of the sale or other disposition, prohibits or imposes limitations on the ownership of equity interests or assets or imposes nationality requirements, or imposes limitations on the numbers of suppliers as described in this reservation shall be deemed to be an existing measure; and
- (ii) "state enterprise" means an enterprise owned or controlled through ownership interests by any Member State and includes an enterprise established after the date of entry into force of this Agreement solely for the purposes of selling or disposing of equity interests in, or the assets of, an existing state enterprise or governmental entity.

Establishment of branches is subject to authorisation.

Representative offices of foreign enterprises are to be registered with Bulgarian Chamber of Commerce and Industry and may not engage in economic activity but are only entitled to advertise their owner and act as representatives or agents.

In EE: If the residence of at least half of the members of the management board of a private limited company, a public limited company or a branch is not in Estonia, in another Member State of the EEA or in the Swiss Confederation, the private limited company, the public limited company or the foreign company shall appoint a point of contact whose Estonian address can be used for the delivery of the procedural documents of the undertaking and the declarations of intent addressed to the undertaking (i.e. the branch of a foreign company).

In CZ: Specific rules apply to agricultural land under state ownership. State agricultural land can be acquired only by Czech nationals, nationals of another Member State, or states parties to the Agreement on the EEA or the Swiss Confederation. Juridical persons can acquire state agriculture land from the state only if they are agricultural entrepreneurs in the Czech Republic or persons with similar status in other Member States, or states party to the Agreement on the EEA or the Swiss Confederation.

In DK: Natural persons who are not resident in Denmark, and who have not previously been resident in Denmark for a total period of five years, must in accordance with the Danish Acquisition Act obtain permission from the Ministry of Justice to acquire title to real property in Denmark. This also applies for juridical persons that are not registered in Denmark. For natural persons, acquisition of real property will be permitted if the applicant is going to use the real property as his or her primary residence.

For juridical persons that are not registered in Denmark, acquisition of real property will in general be permitted, if the acquisition is a prerequisite for the business activities of the purchaser. Permission is also required if the applicant is going to use the real property as a secondary dwelling. Such permission will only be granted if the applicant through an overall and concrete assessment is regarded to have particular strong ties to Denmark.

Permission under the Danish Acquisition Act is only granted for the acquisition of a specific real property. The acquisition of agricultural land by persons is in addition governed by the Danish Agricultural Holdings Act, which imposes restrictions on all persons, Danish or foreign, when acquiring agricultural property. Accordingly, any person, who wishes to acquire agricultural real property, must fulfil the requirements in the Danish Agricultural Holdings Act. This generally means a limited residence requirement on the agricultural holding applies. The residence requirement is not personal. Juridical entities must be of the types listed in § 20 and § 21 of the Danish Agricultural Holdings Act and must be registered in the European Union or EEA.

If a juridical person does not meet the requirements provided for in points (ii) to (iv), the juridical person may acquire an immovable which contains ten hectares or more of agricultural land, forest land or agricultural and forest land in total only with the authorisation of the council of the local government of the location of the immovable to be acquired.

Restrictions on acquiring immovable property apply in certain geographical areas for non-EEA nationals.

In EL: Real estate acquisition or tenancy in the border regions is prohibited to persons whose nationality or base is outside the Member States and the European Free Trade Association. The ban may be lifted with a discretionary decision taken by a committee of the appropriate Decentralized Administration (or the Minister of National Defence in case the properties to be exploited belong to the Fund for the Exploitation of Private Public Property).

In HR: Foreign companies are only allowed to acquire real estate for the supply of services if they are established and incorporated in Croatia as juridical persons. Acquisition of real estate necessary for the supply of services by branches requires the approval of the Ministry of Justice. Agricultural land cannot be acquired by foreigners.

In MT: Non-nationals of a Member State may not acquire immovable property for commercial purposes. Companies with 25 % (or more) of non-European Union shareholding must obtain an authorisation from the competent authority (Minister responsible for Finance) to buy immovable property for commercial or business purposes. The competent authority will determine whether the proposed acquisition represents a net benefit to the Maltese economy.

In PL: The acquisition of real estate, direct and indirect, by foreigners requires a permit. A permit is issued through an administrative decision by a minister competent in internal affairs, with the consent of the Minister of National Defence, and in the case of agricultural real estate, also with the consent of the Minister of Agriculture and Rural Development.

Equity participation and shares in the operating result of any law firm by foreign lawyers (who must be fully qualified in their home country) is allowed up to 25 %; the rest must be held by fully qualified EEA or Swiss lawyers and only the latter may exercise decisive influence in the decision making of the law firm.

Only law firms where the shares belong exclusively to lawyers admitted to the Portuguese Bar can practise in Portugal.

Legal consultation is allowed in any area of foreign and public international law by jurists of recognized merit, masters and doctors in law (even if non-lawyers and non-university professors), provided they have their professional residence ("domiciliação") in Portugal, pass an admission exam and are registered in the Bar.
