DIRECȚIA GENERALĂ AFACERI EXTERNE

Nr. 58/2/ 1648

26 octombrie 2007

MEMORANDUM INTERN

Către: Domnul Mihai Unghianu, Secretar general adjunct al Camerei Deputaților

Tema: Participarea la lucrările Forumului CransMontana, 19-22 noiembrie 2007, Manama, Bahrain.

Domnul Jean-Paul Carteron, Președintele CransMontana Forum, a transmis domnului deputat Adrian Năstase o invitație în vederea participării la lucrările acestui Forum, care va avea loc în perioada 19-22 noiembrie a.c., la Manama, Regatul Bahrein.

Principala temă care va fi dezbătută cu această ocazie face referiri la Orientul Mijlociu și securitatea globală.

Acțiunea se încadrează în prevederile art.5, lit.b din HBP nr.1/2003 cu modificările și completările din HBP nr.5/2007.

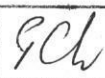

Propunem:

- să se aprobe participarea domnului deputat Adrian Năstase la acțiunea menționată;

- deplasarea să se efectueze cu avionul pe ruta București – Istanbul
- Bahrain și retur, cu plecare în data de 17.11.2007, ora 10.45, (zbor TK 1444) și întoarcerea pe data de 23.11.2007, ora 9.55, (zbor TK 1443);
- să se acorde domnului deputat Adrian Năstase drepturi de diurnă categoria a I a, 100%, pentru 6 zile, cazare plafon A pentru 6 nopți la hotelul ofertat de prestatorul de servicii;
- recalcularea cheltuielilor să se facă la întoarcerea în țară pe baza documentelor justificative.

Director,

Nadia Ionescu

CRANS MONTANA FORUM

Principality of Monaco,
August 27th, 2007

Mr. Adrian Nastase
Deputy - Member of the Committee on Foreign Policy
Chamber of Deputies
Bucarest - ROUMANIE

Middle East Homeland
and Global Security Forum
Manama, Kingdom of Bahrain
November 19 to 22, 2007

Dear Mr. Nastase,

It is my pleasure to invite your participation on the occasion a very exceptional event, the **MIDDLE EAST - HOMELAND AND GLOBAL SECURITY FORUM** to be held in Manama, Kingdom of Bahrain, November 19 to 22, 2007 in association with H.E. Mr. Rashid Bin Abdulla Al Khalifa Minister of Interior and under the High Patronage of H.R.H Shaik Khalifa bin Salman Al Khalifa Prime Minister.

This Forum is be a multi-dimensional platform bringing together and at the highest level the Governments from the Middle East but also from around the World, Businesses and International Organisations in a combination of private meetings, public conferences and presentations of products and services in the field of security. Indeed Homeland Security represents today the most important market for Industry and Business.

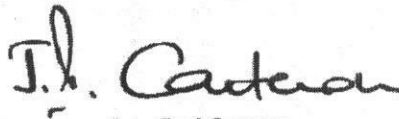

The **MIDDLE EAST - HOMELAND AND GLOBAL SECURITY FORUM** is a yearly event, devoted, at the highest level of decision and policy makers, to strategic reflection and to the study of the technologies applied to security in all fields of national as well as industrial and economic activities. The most important international Experts will join the Forum.

You will find hereby a preliminary information. Don't hesitate to contact us directly and visit our website www.cmf.ch which will be updated every week.

Participants enjoying an Official position will be the Guests of the Government of Bahrain during their stay in the Kingdom.

I do hope to welcome you in Manama and your Colleagues and Associates are also most welcome.

Yours faithfully,

Jean-Paul Carteron

Stimate Domnule Eugen Constantinescu,

Dupa o atenta analiza a agendei domnului deputat Adrian Nastase, acesta a decis sa raspunda doar invitatiei pentru Bahrain, intre 19-22 noiembrie 2007, fiind in imposibilitate sa se deplaseze la Monaco, la Summitul ce va avea loc intre 24 si 27 octombrie 2007.
Va multumesc pentru sprijin si intelegere.
O saptamana excelenta!

Mihaela Nistorescu

CRANS MONTANA FORUM

MIDDLE EAST - HOMELAND & GLOBAL SECURITY FORUM

THE CRANS MONTANA FORUM IN BAHRAIN

Kingdom of Bahrain
Ritz-Carlton Hotel
November 19 to 22, 2007

Under the High Patronage
of
H.R.H Shaik Khalifa bin Salman Al Khalifa
Prime Minister of the Kingdom of Bahrain

OFFICIAL LANGUAGES : ARABIC – FRANÇAIS – ENGLISH

There has never been a time when continuous and co-operative efforts by Governments and Enterprises to identify current security trends and challenges were of such paramount importance especially in the Middle East.

The challenges equally concern intelligence and analysis, sharing experiences, knowledge of innovative products and services, and training for relevant personnel.

These challenges exist at all levels, including risk prevention, diagnosis, communication, data processing and storage, and crisis management.

The clear priority is to create effective and efficient bridges between the public and private sectors, with a view to fostering and building ever-increasing coordination. So far, the Crans Montana Forum, in association with the **Ministry of Interior** and under the **High Patronage of H.R.H. Shaik Khalifa bin Salman Al Khalifa Prime Minister of the Kingdom of Bahrain**, is organizing the Middle East – Homeland & Global Security Forum, a major event which will take place in Manama (Kingdom of Bahrain) from November 19 to 22, 2007.

The Middle East – Homeland & Global Security Forum will gather in Bahrain, mainly from the Middle East but also from other major Countries around the World, the following:

TRANS-MONTANA FORUM

1. Key National and International leaders, Sovereign Families, Heads of State and Government,
2. Members of Governments : Ministers of Economy, Finance, Justice, Interior, Defense, Foreign Affairs, Public Security and their Experts
3. Counsellors and Experts to Governments and Heads of State
4. Speakers and Members of Parliaments from specialized Committees
5. Representatives and Experts of International and Regional Organizations
6. Magistrates from judicial sectors
7. Heads and Experts of Police, Customs and Intelligence services
8. Governors of Central Banks and their Experts in the supervision of Financial and Banking activities
9. Heads of Bodies specialised in the prevention/prosecution of money laundering
10. Business decision-makers, Managers and Directors of the Private sector's companies
11. Professors of Universities

The Middle East – Homeland & Global Security Forum aims at helping

1. Civil society, destabilized by potentially universal terrorism and increasingly concerned with individual and collective security
2. Governments, which are finding it increasingly necessary to meet and deliberate jointly with the Private Sector
3. Businesses that definitely have a decisive role to play and must be associated with global reflections and action

Being a multi-dimensional platform, the **Middle East – Homeland & Global Security Forum** will bring together the world's public and private sectors, governments, international organizations, civil societies and Businesses, to participate in a combination of closed meetings, public conferences, and presentations of products and services.

Various in-depth discussions and training activities will be similarly made available to Forum participants. The **Middle East – Homeland & Global Security Forum** will be a world reference inasmuch as its purpose is to:

1. open multiple debates between political and government leaders – including International Organizations – moderated by leading security experts in the Middle East issues
2. allow for the definition and permanent identification of trends in markets specifically concerned with security issues
3. formulate forecasts with regard to security in the Region
4. expose new challenges and search for solutions
5. present new products, services, solutions, and initiatives while providing Businesses with exceptional visibility in a choice setting.

The **Middle East – Homeland & Global Security Forum** will be a showcase event and a decisive meeting place enabling also young Businesses to confront the *major players*.

The Forum will be a major venue for exchanges, a platform where technological, economic, political, and human aspects of security can be discussed.

PROGRAMME HEADLINES

GEOSTRATEGY

**For a global approach to Security in the Middle East:
the role of regional cooperation**

Pour une approche globale de la sécurité au Moyen-Orient:
le rôle de la coopération régionale

The Palestinian Crisis and its consequences on Regional Security
La crise palestinienne et ses conséquences sur la sécurité régionale

The situation in Iraq
La situation en Irak

**Are the strategies implemented in the US and in the EU coherent as far as the
Middle East is concerned ?**

Les stratégies mises en oeuvre aux USA et en Europe sont-elles convergentes dans
la mesure où le Moyen-Orient est concerné ?

THE GLOBAL APPROACH TO TODAY'S TERRORISM

**The threat of Terrorism and its recent developments; global security funda-
mentals; digital convergence in Security; threat surveillance; developing and
implementing a comprehensive security plan**

La menace terroriste et sa récente évolution; fondamentaux de la sécurité globale;
convergence numérique; surveillance de la menace; le développement et la mise en
œuvre d'un plan exhaustif de sécurité

**Towards necessary adaptation in improving the fight against new menaces:
the nuclear threat and bio-terrorism**

Vers de nécessaires adaptations pour mieux lutter contre de nouvelles menaces:
le terrorisme nucléaire et biologique

The use of Information Technology by terrorist organizations

L'utilisation des Technologies de l'Information par les organisations terroristes

**Trends in Risk in the Middle East and their implications on internal and ex-
ternal security levels**

L'évolution du risque au Moyen-Orient et au niveau international et ce que cette
connaissance implique aux niveaux internes et extérieurs

PREVENTION AND ASSESSMENT : IMPLEMENTATION OF RISK EVALUATION AND TOOLS

Improving risk knowledge: how to remain a step ahead, instead of putting up with the situation before managing the consequences, as in the past
Pour une meilleure connaissance du risque: comment avoir toujours une étape d'avance au lieu de subir puis de gérer comme dans le passé

Risk modelling (a need for analysis) and Risk typology (a prerequisite for defining the needed response)
La modélisation du risque (une exigence de l'analyse) et la typologie du risque (une exigence nécessaire à la définition de la réponse à élaborer)

Threat anticipation and broadening analysis capabilities
L'anticipation de la menace et l'élargissement de la capacité d'analyse

New strategies with regard to crisis prevention ability, Intelligence collection and analysis architecture
Les nouvelles stratégies dans la capacité de prévention des crises et dans l'architecture de collecte et d'analyse du Renseignement

Enhanced detection, identification of emerging threats, and distribution of "security alerts" to Regional partners: use of systems for co-ordinating relevant State agencies and departments, as well as entities within a co-operation network
L'accroissement de la détection, de l'identification des menaces émergentes et la diffusion des « alertes sécurité » vers les partenaires de la Région: le recours aux systèmes de coordination des agences et directions concernées au sein de l'Etat et dans le cadre du réseau de coopération

Development of a proactive policy to anticipating threats to avert risk re-occurrence - Policy implementation in Government and Business
Pour une politique pro-active en amont de la menace permettant d'éviter la survenance du risque - la mise en œuvre de cette politique au niveau des Gouvernements comme des Entreprises

TODAY'S SPECIFIC MIDDLE EAST CONCERNS

Petroleum Industry, Maritime and Airport Security : Individual protection, the security of exploration and drilling sites, transportation and shipping routes, maritime transport, and the fight against piracy are the major concerns currently on the agenda of all industries working with petroleum and gas
Le secteur pétrolier, la sécurité maritime et la sûreté aéroportuaire: la protection des personnes, la sécurisation des sites de recherche et d'exploitation, des parcours de transport et de chargement, le transport maritime et la lutte contre la piraterie sont des préoccupations qui ont envahi la réflexion de toutes les industries liées au pétrole et au gaz

Energy Security: the shift to Nuclear Energy in the Middle East; impact on global Security models; new models for Nuclear Plants security; nuclear waste management and security; addressing nuclear proliferation

Energie et Sécurité: le passage à l'énergie nucléaire au Moyen-Orient; impact sur les modèles globaux de sécurité; nouveaux modèles de sécurité pour les centrales nucléaires; déchets radioactifs et sécurité; faire face à la prolifération nucléaire

Large-scale events and their security: Ensuring the protection of individuals and the security of venues and large-scale political or sports events is today a major challenge for the State as well as for Businesses and event organizers

Les grands événements et leur protection: la protection des personnes et la sécurisation des sites et des grands événements de nature sociale, politique ou sportive, constitue aujourd'hui un enjeu majeur pour l'Etat comme pour les Entreprises et les Organisateurs

How to protect the international financial and banking circuits from the terrorist penetration ? Is the Islamic Finance more sensitive to such dangers ? How to reinforce it ?

Comment protéger les circuits bancaires et financiers internationaux de la pénétration terroriste ? La Finance islamique est-elle plus sensible ? Comment renforcer ses défenses ?

Secure Data Exchange and storage

Confidentiality of data transmissions (telephone, email, Internet, Intranet) and security of networks, communications, and transactions

La sécurité de l'échange d'informations et le stockage de données

La confidentialité des échanges (téléphone, messageries électroniques, Internet, Intranet) et la sécurité des réseaux, des communications et des transactions

Validation of secure equipment for electronic transactions: Secure terminals and e-signature; securing e-commerce

La validation des équipements sécurisés pour les transactions électroniques: Terminaux sécurisés et signature électronique; sécurisation du commerce électronique

GOVERNMENT CHALLENGES

Development of integrated systems

Implementation of platforms and new-generation systems

New predominance of unmanned reconnaissance systems combined with aircraft for manned missions, embedded sensors, and data transmission and analysis technologies

Integrated solutions for network-centric operations

Implementation of complete communication and information solutions

New technical needs: avionics equipment, military mission systems, digital map generators, data link systems, radars, and missile warning and jamming systems

Le développement de solutions de systèmes intégrées

La mise en place de plates-formes et de systèmes de la nouvelle génération

La prédominance nouvelle des systèmes de reconnaissance sans pilote combinés avec des aéronefs de mission pilotés, des capteurs embarqués et des technologies de transmission et d'analyse de données

Les solutions intégrées pour les opérations réseau centrées

La mise en place de solutions complètes de communication et d'information

Les nouvelles nécessités techniques: systèmes d'avionique, systèmes de mission, générateurs de cartes numériques, systèmes de liaison de données, radars et systèmes électroniques d'autoprotection et de brouillage

Searching for a major industrial partner that can offer integrated system solutions

La recherche du partenaire industriel majeur à même d'offrir des solutions système intégrées

Surveillance and Border Control

Use of manned and unmanned aerial vehicles (UAVs), defense electronics, sensors, avionics, and related services in order to gain an ever-faster supply of reliable information

Implementation of strategic HALE (High Altitude Long Endurance) drones, which can conduct long distance surveillance missions

Use of electro-optical sensors, radars, or SIGINT/COMINT systems

Implementation of integrated systems for coastal and border surveillance, petroleum site and vessel protection, and in particular for fighting illegal immigration and smuggling

Surveillance et contrôle des frontières; les drones

Le recours à des engins aériens pilotés et sans pilote (UAV), à l'électronique de défense, aux senseurs et à l'avionique ainsi qu'à leurs services associés pour une fourniture toujours plus rapide d'informations fiables

La mise en œuvre de drones stratégiques HALE (Haute Altitude Longue Endurance) répondant à des missions de surveillance de longue distance

Le recours aux capteurs électro-optiques, radars ou systèmes SIGINT/COMINT

La mise en œuvre de systèmes intégrés pour la surveillance des côtes et des frontières, la protection des sites pétroliers et des navires et notamment la lutte contre l'immigration clandestine et la contrebande

THE NECESSARY SOLIDARITY BETWEEN PUBLIC & PRIVATE SECTORS

The need to conduct a veritable industrial "security" policy: placing State contracts and scientific research funding into perspective

La nécessité de conduire une véritable politique industrielle de «sécurité»: la mise en perspective de la commande publique et du financement de la recherche

Creating an environment of trust with industrial partners, a prerequisite for the emergence of an autonomous security industry

Le développement d'un espace de confiance avec les partenaires industriels - les conditions nécessaires à l'émergence d'une filière industrielle autonome de sécurité

Creating national Security Technology Agencies, tasked with encouraging the development of an industrial and technological sector offering solutions to issues resulting from the heterogeneous nature of security, which traverses several State entities (Interior, Justice, Defence, Foreign Affairs, and Economy)

Pour la création d'Agences nationales pour les technologies de sécurité ayant pour mission de stimuler le développement d'une filière industrielle et technologique répondant aux problèmes posés par la nature hétérogène de la sécurité, transversale au sein de l'Etat (Intérieur, Justice, Défense, Affaires Etrangères, Economie)

Crans Montana Forum

Programme of Activities

2007-2008

APRIL 19 & 20, 2007

CRANS MONTANA

HIGH LEVEL EXPERTS FORUM

Session in Geneva (Switzerland) at the United Nations Headquarters

in association with the United Nations Industrial Development Organisation - UNIDO

From Fossile to Renewable Energy

Oil and Gas Energies are going to an end. Most of the States of the World enjoy an unlimited potential of Renewable Energy resources such as hydroelectricity, bio-fuel, solar energy and wood. Most of the poorest countries today, specially in Africa, are the richest in Renewable Energy. The development of bio-fuel is an extraordinary opportunity to add a significant value to most of the national agriculture productions. How can most of the countries make the best use of these natural resources in order to really boost Economic and Social Development and the well-being of future generations? A constructive dialogue must take place between the Governments themselves (International and Regional Cooperation) and between Governments and International Organisations and Companies (foreign investment, fair trade conditions, development of communities etc.). Renewable Energy development is opening a new and major era of equity and justice around the World.

MAY 10 to 12, 2007

CRANS MONTANA FORUM IN TIRANA (ALBANIA)

2nd yearly session in Tirana (Albania)

Albania is currently implementing major reforms to reinforce the Rule of Law, fight against corruption and improve the global economic situation. The results are spectacular as far as the investment climate is concerned. This major Forum will gather in Tirana key European, World Officials and Business leaders to evaluate the new policies implemented by the Government of Mr. Sali Berishu, the foreign investment climate and the concrete opportunities mainly in Infrastructure, Energy, Transport and Tourism.

JUNE 28 to JULY 1, 2007

THE ANNUAL CRANS MONTANA FORUM !

18th yearly session in Monaco (Principality of Monaco)

Established in 1989, the Crans Montana Forum takes place every year in June. About 1'000 key decision makers from the whole world use to join this key gathering. This Forum is unique and definitely a must for Government Officials and Business Decision-makers.

JUNE 29, 2007

MONTE - CARLO - IUHEI

SPECIAL COURSE on ICT in MONACO

The Management of I&C Technologies for Governments and Businesses

This Course puts emphasis on substantive subjects and topics with respect to ICT for development while focusing on Public sector's Informatisation, emerging needs and trends worldwide in taking advantage of ICT for development. Immediate objectives include to assist national, regional and local Government decision-makers in articulating visions, identifying directions making right decisions on ICT development, to assist ICT entrepreneurs in identifying business opportunities, exploring potential markets and understanding emerging needs, to assist technical professionals in particular of developing countries in recognizing the trends, finding best practices and solutions and identifying business partners. Main topics are : how to create a good governance, aimed at ITC development, to better understand the global trends of information and communication technologies and how they are related to development strategies, to be aware of new products, services and solutions, to catch up with the best practices and share experiences, how to build necessary capacities, how to mobilize resources for ITC development.

JUNE 29 & 30, 2007

MONTE-CARLO - IUHEI

SPECIAL COURSES ON TOURISM - COURSE 1/3 in MONACO

The Global Tourism Industry in 2007
