**EUFORES 13th Inter-Parliamentary Meeting
on Renewable Energy Sources and Energy Efficiency
21 & 22 June 2013, Dublin Castle, Ireland**

Dear Member of EUFORES,
Dear Member of Parliament,
EUFORES is happy to announce its 13th Inter-Parliamentary Meeting (IPM13), organised in cooperation with the Irish Parliament and in association with the Irish EU Council Presidency.
In these turbulent times, it is important to ensure the implementation and promotion of renewable energy and energy efficiency measures. IPM13 aims at creating a platform to discuss all topical developments in these fields with related Members of national Parliaments, Members of the European Parliament and other stakeholders.
This time, the IPM will have a special focus on networking among the neighbouring countries of the North Sea on the European, national, regional and local parliamentary and mayors' level.
The IPM13 programme (which will be published shortly) will ensure a very promising content, with subjects such as:

- The 'cost-myth' of renewables
- The forecast of the EU Member States RES trajectory to 2020
- Wind energy - onshore and offshore in the North Sea Area
- Ocean energy technology
- Developments in the north-sea offshore grid
- The Energy Efficiency Directive
- And much more...
