CHAIRMAN'S CONFERENCE
2017

Dear MP Ben-Oni Ardelean,

August 4, 2017

The leadership of the Israel Allies Foundation (IAF) is honored to extend to you an invitation to attend this year's Chairman's Conference to be hosted in Jerusalem, Israel, on **October 8-10th, 2017 (Sunday-Tuesday)**.

The Chairman's Conference will be held in cooperation with our co-hosts, The International Christian Embassy Jerusalem (ICEJ), The World Jewish Congress (WJC), and Bridges for Peace. This year's Conference is an opportunity for you, as a pro-Israel policy maker to meet with like-minded parliamentarians from around the world. During the Conference we will address current issues facing Israel, such as the growing threat of Antisemitism, security threats, delegitimization efforts, religious persecution in the Middle East, and more. We will also participate in ICEJ's annual gathering of over 5,000 supporters of Israel from 90 different nations at The Feast of Tabernacles.

As the Middle East becomes increasingly unstable, it is more important than ever before that Israel's allies worldwide continue to strengthen the only democracy in the region, the State of Israel. At the conference you will meet with policy makers from around the world, including representatives from some of the IAF's 36 international parliamentary caucuses, local Israeli government leaders, Ministers, and Members of Knesset.

It is vital that our network of Israel's allies speak out in one voice in support of Israel. Your attendance and contributions at this conference will reinforce this vital international network of policymakers who stand on the front lines in defense of Israel.

Flight and accommodation expenses will be covered for the conference. We hope you will be able to join us as we gather in Jerusalem to participate in this global effort to support Israel.

RSVP until Friday, September 8th, otherwise we cannot guarantee accommodation in the 5-star Mamilla Hotel, where the conference will be held.

On behalf of the Israel Allies Foundation,

Josh Reinstein
