

EXPUNERE DE MOTIVE

Numarul studentilor din Romania reprezinta un procent scazut din populatie in comparatie cu celelalte state europene, iar cuantumul burselor acordate studentilor duce la conditii precare de studiu si de viata ale acestora. La data absolvirii, problemele financiare ale fostilor studenti continua, pentru ca rata somajului in randul tinerilor, dovedita statistic, este foarte ridicata.

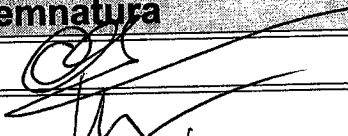

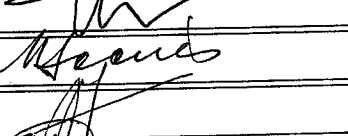

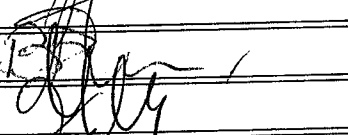

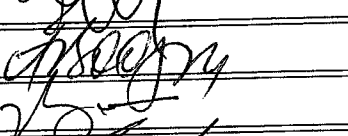

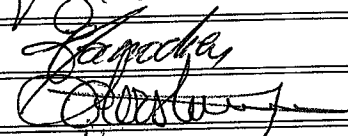

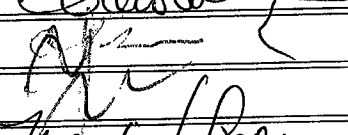

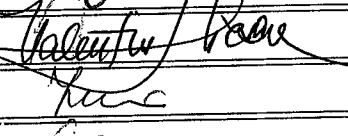

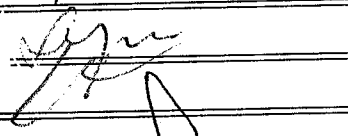

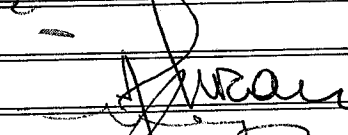

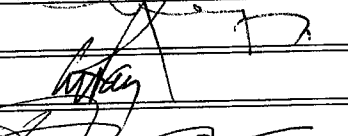

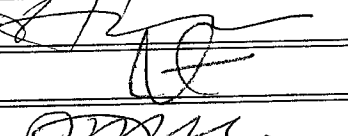

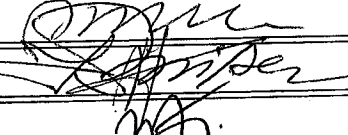

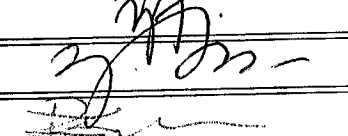

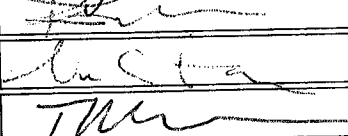

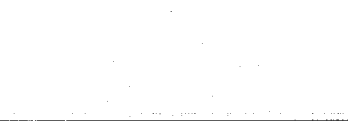

In contextul integrarii Romaniei in Uniunea Europeana, consideram ca actualele conditii precare de viata si studiu ale studentilor diminueaza competitivitatea pe piata europeana a muncii odata cu absolvirea institutiilor de invatamant.

Astfel, apare necesitatea unei reglementari a regimului burselor, in sensul acordarii unor burse private de catre persoane juridice, care va duce la cresterea numarului studentilor bursieri si la facilitarea integrarii acestora pe piata fortei de munca la absolvire prin contactul pe care l-au avut cu una sau mai multe persoane juridice.

Din aceste motive a fost initiata prezenta propunere legislativa privind acordarea de burse private, pe care o supunem spre adoptare Parlamentului.

Semnaturile initiatorilor se gasesc in anexa.
